

1           7. (Amended) Apparatus according to [any of the preceding claims] Claim 1 further  
2 comprising a user operable controller for controlling the foreground CGO generated by the  
3 foreground CGI device.

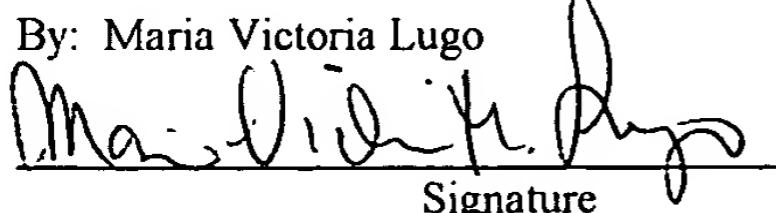

A2  
1           8. (Amended) Apparatus according to [any of the preceding claims] Claim 1 wherein  
2 the control parameters define the three-dimensional position of a feature in the background object,  
3 and wherein the interaction means causes the foreground CGO to be at least partially obscured  
4 when the monitored position of the foreground CGO lies behind the three-dimensional position of  
5 the feature.

□ 1           12. (Amended) A method according to Claim 10 [or claim 11], wherein the selecting  
2 step occurs when the foreground CGO is located at a predetermined position relative to the  
3 background object
